

Quadro Consulting is a growing company founded and based in Bonn, Germany. We specialize in Information Technology and various design services. We design and build complex custom solutions for various industries, from telecommunications, banking, retail, e-commerce, business intelligence, to hospitality, point of sales, manufacturing, document management, production processes, and many more.

We are looking for an experienced IT professional for a 6-month assignment with the role of:

QA Engineer

A team is being put together to work alongside US-based developers to migrate a Marketing Campaign software for the Real Estate industry. The legacy platform has Java & Node.js modules, using VMS, MySQL and MongoDB.

What we are offering:

- Working in a friendly environment of young people
- Opportunity to prove yourself, apply your skills, and learn
- Competitive salary

Requirements:

- Minimum 2 years of professional experience in QA
- Experience with JIRA and Zephyr for JIRA
- Experience with teamwork and collaboration
- English language full proficiency is a must

Bonus skills:

- Experience with Java or other Object-Oriented programming languages
- Experience in automation testing with Selenium
- Experience in Agile-managed development projects
- Experience with US clients or customers

- Knowledge of IT companies' Compliance and Security requirements

If you find yourself suitable for this position, please send us your CV to office@quadro-consulting.com
