

Quadro Consulting is a growing company based in Bonn, Germany specialized in diverse information and communication technology services. Our expertise includes: diverse software development, data analysis, quality assurance, digital marketing, social media consulting, web design and fulfillment, document management, visual design, hardware development, and much more.

We are looking for a **Shopware developer (Back-end)** for the Belgrade office.

We are expanding the development team in Belgrade for our old client in Germany. The assignment is long-term, and the project itself consists of conceiving and realization of sophisticated online shops.

The developer would closely work with German-based colleagues and departments (design, online marketing, editing) to develop complex and varied solutions in cooperation with other developers.

What we are offering:

- Working in a friendly environment of young people
- Flexible working hours and occasional remote work
- Working exclusively dedicated on the listed, no rotation between multiple projects
- Opportunity to show yourself and apply your skills
- Competitive salary

Requirements:

- Minimum 2 years of professional experience in the realization of Shopware projects
- Excellent knowledge of PHP, HTML, MySQL, CSS and jQuery
- Good to very good practical experience with Enlight, Zend Framework & Smarty
- Experience with web services and REST & SOAP interfaces (especially merchandise management systems)
- High quality standards in all development stages
- Experience with front-end technologies: HTML, CSS

- Experience with teamwork and collaboration
- Proficient with English language (read, write and speak) is a must

Bonus skills:

- Knowledge of Magento would be desirable
- Experience with code versioning systems, preferably Git
- Knowledge of German language

If you find yourself suitable for this position, please send us your CV to office@quadroconsulting.com
